

Diaper Dyno Class

Crawlers to Walkers!

- Come play with your active little one in Airborne's colorful padded playground
- Enjoy music and movement in our huge open gymnastics space with nurturing guidance

Led by experienced TEAM coaches

Marc and Tonya, Diaper Dynos is a loosely structured class for children crawling to 2 years old. The gym is a big colorful playground with lots of fun exploratory play. The class is designed with a toddler's natural needs and joys in mind. The stations are set up to challenge all locomotor skills: running, jumping, rolling, and climbing to name a few. Children learn socialization skills such as making new friends, taking turns, and taking directions from an adult other than their parents. Parents participate by lending support, following their child's lead, and with the instructor, discovering each child's special personality in the gymnastic environment. This class will provide an excellent transition to Minimights.

Monday and Wednesday 10:15—11:00 AM

No registration fee!

\$50 a month

*can attend 2nd weekly class **FREE!**
